

# Innovating a Better Way in Corn Oil Separation

Take your DCO  
potential to new heights.  
Scan for details!

## *Better. Cleaner. Smarter.*

### Optimized DCO Extraction:

- Protection for DCO extraction systems
- Increases DCO yield
- Rapid return on investment
- Enhances all disc stack DCO extraction systems
- Completely Integrated Skid Package
- Advanced Process Control
- Optional Remote Monitoring
- Custom Designed for Syrup Feeds

### Trucent Syrup Conditioning System

#### Optimized to Protect DCO Extraction Systems

- Easy installation with single-point connections
- Proven components for maximum system uptime and reliability
- Compact, modular design minimizes floor footprint
- Compatible with all disc stack DCO extraction systems
- Low Capital Expenditure and Fast ROI
- Seamless integration, compatible with all plant configurations
- Industry-leading returns

### Trucent: Industry Leading Service Provider

- Advanced Analytical Support
- Process Analytics
- Product Distribution
- Preventative Maintenance
- Shutdown Support
- Full Inventory of spare parts
- Emergency call-out services

**Quit Ducking Around.**  
Optimize your feed, enhance your DCO.
